

ZERO M

WATER SHIELD

FOR MOISTURE RESISTANT HOMES

NUVOCO
Shaping a new world

Nuvoco Vistas Corp. Ltd. has been a part of the Indian construction landscape since 1999. And as a trusted brand, that constantly innovates and evolves itself, it has been a pioneer of the industry. With industrial experience and enterprising solutions, Nuvoco brings you 'Zero M Water Shield' that offers a complete water proofing solution to your constructions. It prevents water seepage from inside walls, saves against delaminating of wall paint from substrate and also eliminates crack formation. Besides that, it also solves age-old problems such as water leaking roofs, damp walls, plaster shedding and efflorescence of walls. This is an incredibly suitable and sophisticated waterproofing solution that protects construction from top to bottom.

AREAS OF APPLICATION

Zero M Water Shield is recommended for structural concrete and mortar.

- Flat and Slope Roof Slabs
- Internal and external plaster
- Columns and beams
- Repair and renovation
- Water retaining structures etc.

METHOD OF APPLICATION

- Add cement & aggregates to concrete mixer as per the mix design, mix in dry state for 1-2 minutes
- Add 60-70% water and mix for 2-3 minutes then add recommended dosage of 'Zero M Water Shield' into the remaining water and add to concrete mixer & mix for another 2-3 minutes
- Place the concrete or apply plaster as per requirement

HEALTH & SAFETY PRECAUTIONS

- Use rubber gloves & safety goggles while using the admixture
- In case of contact with skin, wash with plenty of water
- Keep out of reach of children

Invest less,
profit more.
